

378 E

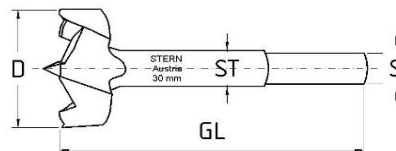

Forstnerbohrer Forstner Bit

Hervorragend für Freihandbohren geeignet.
Zwei Hauptschneiden, lange Peripherieschneide mit gezahnter Kronenform, Zentrierspitze.
Optimierter Spankanal, präzise Ausführung, Spezialstahl für hohe Standzeit, mehrfach schärfbar.

Best design for hand guided drilling, small centre tip, peripheral cutting edge and two main cutters.
Particularly suited for drilling of tear-free, true-to-measure blind holes, as well as rim boreholes.
Special tool steel for high durability, resharpenable.

Zubehör/Accessory

Verlängerung 477FV, Tiefensteller 325K
Extension 477FV, depth adjustment 325K

Werkstoffe/Material

Weichholz, Europ. Hartholz
Softwood, European Hardwood

Empfohlene Drehzahl/Recommended RPM

600 - 2500 U/min
600 - 2500 RPM

Verwendung/Application

Handbohrmaschine / Freihandbohren
Power Drill / hand guided
